

COMPLETED GRANT SYNOPSIS

IMPACT Care Transformation Institute

Benjamin M. Bluml, BSPHarm

American Pharmacists Association Foundation | Washington, D.C.

Objectives

The objective of the IMPACT Care Transformation Institute is to deliver a training and resource program that will facilitate the rapid implementation of innovative care models that can expand access to pharmacists' patient care services. This program is designed to empower participants to move from reading about care models and sustainable business models to taking action to implement them locally. Pharmacists and other health care providers who successfully complete the IMPACT Care Transformation Institute will improve the knowledge and skills needed to implement meaningful changes in their practices to enhance patient care through sustainable practice models.

Methods

Design	The IMPACT Care Transformation Institute brings together practice-based research experiences and evidence generated by the APhA Foundation over the last 20 years in a training and resource program that will help participants successfully implement and sustain pharmacists' patient care services.
Endpoints	The IMPACT Care Transformation Institute is one easy-to-use package that provides tools and resources to help health care practitioners implement patient-centered, team-based care that improves health outcomes.

Results

The following provides a brief outline of the infrastructure for the IMPACT Care Transformation Institute.

IMPACT Care Transformation Institute Learning Content (1.45 CEUs):

Three principle-centered, evergreen online components focus on boosting providers' knowledge in three major topic areas. Active learning objectives and activities are incorporated throughout the online self-study components:

- *Module 1: Designing Patient-Centered Team-Based Models of Care (0.3 CEUs)*
- *Module 2: Building Sustainable Models for Patient Care Delivery in Practice (0.3 CEUs)*
- *Module 3: Evaluating Patient Care Models and Measures to Demonstrate Value (0.3 CEUs)*

Three contemporary online webinars utilizing experiences and examples that apply to current practice provide participants with insights and challenges to apply the knowledge learned from the online self-study modules in an interactive webinar session:

- *Webinar 1: Implementing Innovative Patient-Centered, Team-Based Care with Aligned Incentives (0.15 CEUs)*
- *Webinar 2: Cultivating a Sustainable Practice Model and Scalable Service (0.15 CEUs)*
- *Webinar 3: Using Data to Demonstrate Value and Justify Services (0.15 CEUs)*

One active learning exercise designed to facilitate development of a new patient-centered, team-based care practice implementation strategy and plan for the participant's practice utilizing principles from the online self-study modules and interactive webinars:

- *Inventing Your Preferred Future: Pulling it All Together in an IMPACT Implementation Plan (0.1 CEU)*

Conclusion

The IMPACT Care Transformation Institute provides health care providers with insight and learning designed to contribute to their knowledge base and skill set and support efforts to implement patient-centered, team-based care
