

## **THE BEST CHOICE**

Pharmacists are trusted and respected by your patients. A one on one visit with a pharmacist reviewing all medication use, both prescription and over-the-counter, can have life-changing results for many.

Pharmacists truly are medication experts. The focus of their training and experience is medication use and therapy. They desire to work together with other members of the healthcare team for positive outcomes for OUR patients.

***This service is available  
at MCHC Pharmacy in  
Traverse City, among  
others***

**PHARMACISTS  
ARE  
MEDICATION  
EXPERTS**

**PRESCRIBE A COMPLETE  
MEDICATION REVIEW FOR  
AT RISK PATIENTS**

## **PART OF THE TEAM**

**IMPROVING PATIENT OUTCOMES  
TOGETHER**

**This service complements your relationships with your patients. It further enhances the Patient Centered Medical Home model. The main goal is to improve patient health outcomes, including reducing emergency room visits and hospital inpatient stays.**

## **MEDICATION THERAPY MANAGEMENT**

### **AN ESSENTIAL COMPONENT OF PCMH**

**Including:**

- **Annual comprehensive medication reconciliation of both OTC (including herbal) and prescription meds**
- **Teaching patients responsibility for their own healthcare through understanding of their medications**
- **Finding opportunities in evidenced-based care measures to assist you**

## **WHICH PATIENTS SHOULD YOU RECOMMEND?**

**Any patient you have concerns about, especially those with multiple disease states and many medications**
